

SPOTLIGHT ON GRADUATE STUDENT

ADE CHANDRA IWANSYAH, MSc (Industrial Chemistry) candidate

"I believe that life is going to side with those who dare to dream"

Ade Chandra Iwansyah, 28 years old, was born in Bogor, Indonesia. He received his early education in Bogor and pursued his bachelors degree in Community Nutrition at Bogor Agricultural University (IPB), Indonesia in 2005.

After finishing his bachelors degree, he first worked at Southeast Asian Food and Agricultural Science and Technology (SEAFast-IPB) as an assistant researcher (September 2005 - March 2006); then as a researcher (Food Science and Nutrition) at Centre for Appropriate Technology Development, Indonesian Institute of Sciences (LIPI) (April 2006 until present). While working, he decided to pursue a masters degree (by research) in Food Technology at Faculty of Industrial Sciences and Technology, Universiti Malaysia Pahang, with a project entitled "Studies of Water-Soluble Extract of Labisia pumila var. alata of Selected Geographic Origin" under the supervision of Prof. Dr. Mashitah Mohd Yusoff.

Ade Chandra is interested in functional foods, food/bioactive compounds, and "omics" of nutrition, especially metabolomics. He is grateful to Universiti Malaysia Pahang for financial assistance, support and opportunity in realizing his goals.

His motto of life is "I believe that life is going to side with those who dare to dream".
