

10 Oct 2009. A great learning process should go by heart and senses not just by memorising it. With this in mind, a delegation of 40 JanPU club members lead by Syahrina Ahmad, the club advisor, was invited by Amir Zackry, the representative of Berjaya Hills Berhad, for a visit to Japanese Village at Bukit Tinggi. The main objective of the visit was to introduce the Japanese culture. In fact, the visit was the second trip organised by the club so far. Visitors immediately felt they were embracing the Japanese culture the moment they set foot on Japanese Tea House Village and Ryo Zan Tei Bento Restaurant where the landscape was inspired by the famous Japanese architect, Kaio Ariizumi. Apart from that, the delegation had their unforgettable moments as they experienced wearing Yukata, a Japanese traditional costume. It is hoped that such visit can be organised annually to give a first hand experience of Japanese culture here in Malaysia to the club members.
