

# LaTeX Workshop

A one-day LaTeX workshop was conducted on July 20 by the Faculty of Science & Technology Industry (FIST) at UMP Gambang. There were 29 participants from among FIST's academic staff and graduate students. Dr Roslinazairimah Zakaria conducted the workshop assisted by Dr Mohd Zuki Salleh and Pn Siti Roslindar Yaziz.

LaTeX is a document preparing system that has been used widely to prepare documentation (as alternative to Microsoft Word), to write journal articles or thesis. It is particularly useful when mathematical symbols are involved. The writer only need to concentrate on the input and LaTeX will take care of the formatting such as section numbering, indexing and references listing. Contact Dr Roslinazairimah (095492264) to arrange a LaTeX workshop for your group.
