A STUDY ON THE CAUSES OF DESIGN CHANGES EFFECTING THE CONSTRUCTION PROJECT PERFORMANCE

NUR ARFAHANEM BT MOHAMAD UMPANDI

(AA12204)

A report submitted in partial fulfillment of the requirement for award of the degree of B. ENG. (HONS) CIVIL ENGINEERING

Faculty of Civil Engineering & Earth Resources

UNIVERSITI MALAYSIA PAHANG

JUN 2016
SUPERRVISOR’S DECLARATION

“I hereby declare that I have check this thesis “ A study on the causes of design changes effecting construction performance” and in my opinion, this thesis is adequate in term of scope and quality of award of the degree of B. ENG (HONS) CIVIL ENGINEERING”

Signature : 
Name of Supervisor : MPOHAMMAD SYAMSUL HAIRI BIN SAAD
Position : LECTURER
Date : 30 JUNE 2016
STUDENT’S DECLARATION

“I hereby declare that the work in this thesis “A study on the causes of design changes effecting construction performance” is my own except for quotation and summaries which have been duly acknowledged. This thesis has not been accepted for any degree or is not currently submitted for award of other language.

Signature : 
Name of Supervisor : MOHAMMAD SYAMSUL HAIRI BIN SAAD
Position : LECTURER
Date : 30 JUNE 2016

CHAPTER 1       INTRODUCTION

1.1 Introduction ........................................................................................................ 1
1.2 Problem Statement ............................................................................................... 2
1.3 Objectives ............................................................................................................. 3
1.4 Scope of Study ...................................................................................................... 3
1.5 Methodology ......................................................................................................... 4
1.6 Significance of Study .......................................................................................... 5

CHAPTER 2       LITERATURE REVIEW

2.1 Introduction ........................................................................................................ 6
2.2 Definition of Design Change ................................................................................ 7
2.3 Definition of Rework ............................................................................................ 7

CHAPTER 3 METHODOLOGY

3.1 Introduction ........................................................................................................ 21
3.2 Identify Problem & Issue ....................................................................................... 21
3.3 Decide the Topic ..................................................................................................... 22
3.4 The Objective ......................................................................................................... 22
3.5 Gathering Data & Information ............................................................................. 22
   3.5.1 Questionnaire Design .................................................................................... 23
3.6 Processing or Analyzing Data and Result ............................................................. 23
   3.6.1 Statistical Package for Social Science (SPSS) ................................................ 23
   3.6.2 Microsoft Excel ............................................................................................. 25
3.7 Conclusion & Recommendation ........................................................................... 25

CHAPTER 4 RESULT AND DISCUSSION

4.1 Introduction ........................................................................................................... 26
4.2 Initial Analysis of Background Information .......................................................... 27
4.3 Analysis of the Causes of Design Changes ............................................................ 31
4.5 Analysis of How to Improve Design Changes Problem ........................................ 35

CHAPTER 5 CONCLUSION

5.1 Conclusion ............................................................................................................. 37
   5.1.1 Causes of Design Changes ......................................................................... 37
   5.1.2 Effect of Design Change ................................................................................. 38
   5.1.2 How to Improve Design Changes ................................................................. 38
5.2 Recommendation .................................................................................................. 38
