ACKNOWLEDGEMENT

First of all, I am thankful to Almighty Allah, most Gracious, who in His infinite mercy has guided me to complete this Master research work. May Peace and Blessings of Allah be upon His Prophet Muhammad (peace be upon him).

I am grateful to my supervisor Dr Omar Bin Jamaludin for being an extraordinary supervisor who showed me the road and helped to get me started on the path to these degrees. Her enthusiasm, encouragement and faith in me throughout this research and have been extremely helpful. He was always available for my questions and he was positive and gave generously of her time and vast knowledge. He was always knew where to look for the answers to obstacles while leading me to the right source, theory and perspective.

I am highly indebted to my parents, Abd Hamid Bin Ismail and Nor Azam Binti Abdullah for their continuous support that made every opportunity available to me throughout my life. I would also like to thank the member of reading committee for reviewing and evaluating my thesis. I am also thankful to my friends UMP colleagues Aiman Hakimi, Noor Hansiya, Isma Farhan, Asraf Kamaludin, Hafiz Osman, Mohamad Hafizuddin, Abdul Hadi, Asyraf Ramzi, Syuhada Thobari, Syahidah Abu Bakar, Syahmi Khamis for their useful knowledge, discussions, and always cheers me when I am grief.

Lastly, I would like to take this opportunity to thank my university, University Malaysia Pahang for providing me the good condition of facilities and equipment to complete this study and thank you all to those people who have been involved in taking care of me during my Degree studies in University Malaysia Pahang.
