

## An Insight on Risk Management in Industry by Dr. Hari

Kuantan, 22 Februari – More than 500 students participated in Industrial Talk by CEO program with Dr. Hari Narayanan, Managing Director at Motorola Solutions Malaysia Sdn. Bhd. This talk was organized by Faculty of Industrial Management and Faculty of Computer Systems & Software Engineering collaborated with Industry Partnership & Community Relation Office (JJIM).

According to Assistant Vice Chancellor of JJIM, Professor Dr. Jamil Ismail, synergy between corporate leader and university expertise can escalate graduate employability. Initiative introduced by Ministry of Higher Education (MOHE) provides an opportunity to each CEO's to share their knowledge and industry experience between 20 to 30 hours a year in a host or affiliate university.

"But it turns out after nearly two years the involvement of Dr. Hari Narayanan as CEO@Faculty at UMP, he succeeded in meeting reaches almost 100 hours until he is recognised as 'The Most Dedicated CEO' by the MOHE," he said.

Meanwhile, JJIM Acting Deputy Registrar, who is also MOHE Focal Officer in UMP, Mohd Raizalhilmy Mohd Rais said, this program is a continuation from previous CEO@Faculty program that has started two years ago involving prominent corporate leader from GLC, leading industries and highest officer in public service. Undergraduates get the chance to learn more on the best practices of administrative that enable them to think better and holistic.

The recent meeting gives Dr. Hari opportunity to share his view on risk management in project and operation where few current issue in industry were discussed. Risk management process started with planning, risk identification, qualitative and quantitative risk analyzing and control and monitoring plan. Various method used to identify risk, including documents review, brainstorming, interviews and using Delphi technique.

Motorola Procurement Director, Eric Yong were also involved in this session where he shared on how to choose wisely in procurement globally. Motorola aims to provide the best product for its clients at the same time focusing on service and product innovation.

Procurement plays an important role globally in ensuring its supply meet the customers need. Motorola maintain close relationship with its strategic partners world-wide to find new ideas and option and most importantly, to ensure the product delivered to customers regardless any issues.

This year CEO@Faculty bring forward a series of public lecture, industrial advisory, industrial visit and not to forget CEO Get Together Forum that involves prominent leader of CEO@Faculty such as MOHE Chief Secretary and Tenaga Nasional Berhad (TNB) Chief Executive Officer that will be held in May.
