

Sumaiya Zainal Abidin is a senior lecturer in the Faculty of Chemical & Natural Resources Engineering, Universiti Malaysia Pahang (UMP). She received her B.Eng (Chemical Engineering) and M.Sc. (Chemical Engineering) from Universiti Putra Malaysia (UPM) and further obtained her Ph.D (Chemical Engineering) from Loughborough University. She has been working in UMP since June 2006 and appointed as URP Lead Coordinator since September 2012. Over the years, she managed to secure several international, national, and internal grants as a principal researcher. Her research focuses on reaction and separation engineering which includes renewable energy, catalysis, biofuels and biodiesel, fats crystallisation, development of drug deliver carrier, and rare earth separation technology. She has published her work in various impact factor journals including Minerals Engineering, Fuel, Particuology, Industrial Crops and Products, and Industrial and Engineering Chemistry Research. She is currently a research fellow for the Centre of Excellence for Advanced Research in Fluid Flow (CARIFF).

Nurul Aini Mohamed Razali is a senior lecturer in the Faculty of Chemical & Natural Resources Engineering, Universiti Malaysia Pahang (UMP). She received her Bachelor's and Master's degrees from Universiti Teknologi Malaysia (UTM) in 2007 and 2010, respectively, and completed her Ph.D in Universiti Sains Malaysia (USM) in 2014. She joined UMP since February 2014 and has been appointed as Undergraduate Research Project coordinator in October 2014. Her main research interests are in the area of catalysis, renewable energy, nanomaterials, and reaction engineering. She has published widely in international journals and conferences.

Rohaida Che Man is a senior lecturer in the Faculty of Chemical & Natural Resources Engineering, Universiti Malaysia Pahang (UMP). She also has experience in teaching in Kuliyah of Science, International Islamic University Malaysia. She completed all her degrees in Universiti Teknologi Malaysia (UTM) — B.Sc (2005), M.Sc (2007), and Ph.D (2016). She specialises in the production of enzyme through recombinant cell, synthesis of product using enzyme technology and fermentation process in bioreactor. She has authored and co-authored over 10 publications in several high impact journals including Biochemical Engineering Journal and Process Biochemistry. She is also a writer for the Module of Research Methodology (Engineering) under Institut Pengajian Siswazah, Universiti Malaysia Pahang (IPS, UMP). Her research interests and publications include the enzyme and immobilisation technology, fabrication of bioreactor, and application of recombinant cell.

Nurul Sa'adah binti Sulaiman received her B. Eng and M.Sc. Degrees in Chemical Engineering from Universiti Sains Malaysia (USM) in 2008 and 2009, respectively and Ph.D degree in 2017 from Universiti of Aberdeen. She joined Universiti Malaysia Pahang (UMP) as a lecturer in 2009. Her main research interests are risk analysis, risk management, and oil and gas pipeline integrity.

Hamidah binti Abdullah received her Bachelor in Chemical Engineering (2005) and Master in Science (2008) degrees from Universiti Sains Malaysia (USM) before becoming a lecturer in the Faculty of Chemical & Natural Resources Engineering, Universiti Malaysia Pahang (UMP) in 2008. Currently, she is pursuing her Ph.D study in Chemical & Process Engineering at Universiti Kebangsaan Malaysia (UKM). She has five years of experience in teaching Chemical Reaction Engineering subject. Her research interests and publications are in the area of catalysis and photocatalysis.

Rozaimi bin Abu Samah pursued his Bachelor's degree in Universiti Teknologi Malaysia, (1997-2001) in the field of Chemical Engineering. Having interest in enzymes and microbiology, he later enrolled for a Master's programme also in Universiti Teknologi Malaysia (UTM). While waiting for the completion of his study, he joined Kolej Universiti Kejuruteraan & Teknologi Malaysia (now Universiti Malaysia Pahang) in 2005 as a tutor. He completed his Master of Engineering (Biotechnology) in 2006. In 2016, he obtained his Ph.D degree in Industrial Biotechnology in Universiti Putra Malaysia (UPM). He has taught several undergraduate courses including Bioseparation Engineering, Science & Engineering Material, and Numerical Methods & Optimization. His main research interest is separation process for bioproducts. He is also an active proofreader for academic texts, mainly research articles and postgraduate thesis.

Norazwina binti Zainol received her Bachelor in Chemical Engineering from Universiti Kebangsaan Malaysia (UKM). Her Master in Science and Ph.D degrees were also granted by the same university. She joined the Faculty of Chemical & Natural Resources Engineering, Universiti Malaysia Pahang (UMP) in 2005. While she has taught various chemical engineering subjects, she is still devoted to research and consultation in environmental engineering. Her research interests are in biofuel, solid waste treatment, environmental biotechnology, renewable energy, and wastewater treatment. Currently she is the Head of Bioprocess and Biosystems Engineering Cluster (BBEC).

GREETINGS

Assalamualaikum w.b.t.

In the name of Allah, The Most Gracious and The Most Merciful. Peace and blessings be upon our prophet Muhammad SAW.

I would like to congratulate the Faculty of Chemical and Natural Resources Engineering (FKKSA) Undergraduate Research Project (URP) Committee, Penerbit UMP and everyone who have contributed towards the publication of the FKKSA Undergraduate Research Project Writing Guidelines. The purpose of this book is to serve as a guideline as well as provide useful information towards producing URP reports with high quality.

To all URP students, it is my sincere hope that this guideline will assist you to produce the research proposals, thesis, and technical papers, as well as research posters of the highest quality.

Best wishes,

PROFESSOR ZULKAFLI HASSAN *CEng. FEI SPE*

Dean,

Faculty of Chemical and Natural Resources Engineering,
Universiti Malaysia Pahang

PREFACE

Assalamualaikum w.b.t.

Alhamdulillah, thanks to Allah the Almighty, with His blessings, our team has finally come out with our first FKKSA Undergraduate Research Project Writing Guidelines. Thank you Allah for giving us the inspiration, drive, and motivation in completing this guideline.

This module was mainly written for FKKSA students taking the Undergraduate Research Project courses, i.e., BKC3922 and BKC4944. It was specifically developed to provide guidance to students in their writing task. This guideline is divided into four elements, which are research proposal, thesis, technical paper, and poster. Each element explains the must-have information and related examples. We hope this guideline could benefit the students and guide them to complete their writing in a proper manner.

The URP Committee would like to thank everyone who helped and contributed to make this guideline a success. It has been a wonderful experience to work together and helping others especially our beloved FKKSA students. The committee also would like to take the opportunity to express our appreciation to our family members that continuously giving care and supports.

Lastly, we hope that this book could serve the students as what it intends to and enhance the students' understanding on the importance of having a good quality of writing. We wish you all the best for your undergraduate research project. Thank you!

Wassalam,

Sumaiya Zainal Abidin
Chief Author

TABLE OF CONTENT

GREETINGS	i
PREFACE	ii
Table of Content	iii
CHAPTER 1 GUIDELINES FOR RESEARCH PROPOSAL WRITING	1
1.1 Introduction	1
1.1.1 Background of the Study	1
1.1.2 Motivation	2
1.1.3 Problem Statement	3
1.1.4 Objectives	4
1.1.5 Scopes of Study	5
1.2 Literature Review	6
1.3 Materials and Methods	11
1.4 References	17
CHAPTER 2 GUIDELINES FOR THESIS WRITING	19
2.1 Abstract	19
2.2 Abstrak	20
2.3 Introduction	20
2.3.1 Background of the Study	21
2.3.2 Motivation	22
2.3.3 Problem Statement	23
2.3.4 Objectives	24
2.3.5 Scopes of Study	25
2.4 Literature Review	26
2.4.1 General guidelines	26
2.4.2 Major structures of Literature Review	26
2.4.3 Tenses and spelling	27
2.4.4 How to write a good paragraph	27
2.4.5 Headings, Figures and Tables	27
2.4.6 Equations	27
2.5 Materials and Methods	27

2.5.1	General guides	28
2.5.2	Major structure of material and methods	28
2.6	Results and Discussion	33
2.7	Conclusion and Recommendation	36
2.7.1	Conclusion	36
2.7.2	Recommendation	37
2.8	References	38
CHAPTER 3	GUIDELINES FOR TECHNICAL PAPER WRITING	40
3.1	Title	40
3.2	Abstract	41
3.3	Introduction	42
3.4	Materials and Methods	45
3.5	Results and Discussions	48
3.6	Conclusion	50
3.7	Acknowledgement	51
3.8	References	51
CHAPTER 4	GUIDELINES FOR POSTER	53
4.1	Introduction	53
4.2	Methodology or Experimental	53
4.3	Results and Discussion	53
4.4	Conclusions	53
4.5	References	53
