ACKNOWLEDGEMENTS

I would like to take this opportunity to thank my university, University Malaysia Pahang for providing me the good condition of facilities and equipment to complete this study.

I would also like to express my sincere appreciation to my supervisor, Dr Doh Shu Ing, who has been very supportive in guiding and providing me informative discussion and recommendation throughout the programme. His consistent encouragement and motivation allowed me to perform and unleash my capabilities in this research field.

In addition, I would like to express my gratitude to my panel, Dr Omar bin Jamalludin to their valuable suggestions and comments on my work to allow me to improve my research outcome and meet the objectives of this study.

Apart from that, I would like to thank all the lecturers whom have taught me in every semester. They have indeed helped me to reinforce my basic knowledge and theories in this field.

A special thanks to my friends for they are always willing to share their precious knowledge and resources with me in completing this research work.

Finally, I am also grateful to my family Mr. George Ak Janting, Mrs. Juraidah Nain, Eldrian Cliff, Enellia Cheryl and Eflronn Cyril for their love and encouragement all the way to the completion of my task in this programme.
