ACKNOWLEDGEMENTS

Firstly, all praise goes to almighty ALLAH who is the Lord of worlds. The Compassionate, the Merciful.

I would like to express my sincere gratitude to my supervisor Mohammad Syamsyul Hairi Bin Saad. He is the one who always there to guide me and always be patient with all of my mistakes and the problems caused by my weaknesses.

My heartfelt thanks to my parents, Mohd Radzi Bin Tamam and Deramani Binti Mat, for supporting me through every situation. Thanks to my siblings, who provides financial and moral support to help me to finish this research. I also would like to thanks all my friends, who guided me to complete this research. These individuals are the ones who gave me inspiration me to be a better person.

Finally, I would like to thank myself, congratulate myself, and give myself a big pat on the back for being the best person that I have ever known. Thanks for your determination in this challenging road, the one who keep going when everyone doubt your potential and ability to finish this journey.
