

THE DEVELOPMENT OF RAINFALL  
TEMPORAL PATTERN IN KLANG VALLEY

AFIQAH FAIRUZ BINTI MAHMUD

B. ENG(HONS.) CIVIL ENGINEERING

UNIVERSITI MALAYSIA PAHANG

## **SUPERVISOR'S DECLARATION**

I hereby declare that I have checked this thesis and in my opinion, this thesis is adequate in terms of scope and quality for the award of the degree of Bachelor of Civil Engineering.

THE DEVELOPMENT OF RAINFALL TEMPORAL PATTERN IN KLANG  
VALLEY

AFIQAH FAIRUZ BINTI MAHMUD

Thesis submitted in fulfillment of the requirements  
for the award of the  
Bachelor Degree in Civil Engineering

Faculty of Civil Engineering and Earth Resources

UNIVERSITI MALAYSIA PAHANG

JUNE 2017

## ACKNOWLEDGEMENTS

In the name of Allah, the Most Gracious and the Most Merciful.

Alhamdulillah ala kulli hal. I am grateful to The Almighty and the Most Merciful Allah S.W.T for the good health and wellbeing that has been granted to me for completing my thesis filled with His blessing and guidance. After all, I am really grateful upon the completion of my final year project with a Bachelor Degree in Civil Engineering from Universiti Malaysia Pahang (UMP).

All praises to Allah for the strengths and His blessing and guidance by granting me a really supportive supervisor Madam Shairul Rohaziawati Binti Samat. I am highly indebted for her patience and constant support towards completing my final year project. This journey is embarked with valuable experiences and golden opportunities which I could not ask for more in somewhere else for the past one year.

Many thanks to my Co-supervisor, Mr. Norasman Bin Othman. His encouragement, advices and moral support helped me to continue growing and stay motivated during my long term case study. The success of this depends largely on the encouragement and guidelines of him too.

Apart from the efforts of mine, I wish to express my heartfelt gratitude to my beloved father and mother who spend countless effort and time on me. The unconditional love and heartfelt prayers given were the best moments in my entire life.

Last but not least, many thanks to my dearest friends Nurliana Binti Bahron and Siti Nur Nadirah Binti Omar for keeping the friendship spirit alive and the moral supports given during my toughest moment of this journey, was really a memorable one. All the best for your future endeavors.

With love from me, thank you for everything.
