HIGHLIGHTS

Exchange Program: Industrial Biotechnology Program with Three Asian Nations

The faculty waved the inbound students off at an iftar party in May 2018 as the students were approaching the end of their stay in UMP.

We hope to see even more international students to visit and experience Malaysia here in UMP.

Get ready! Opportunity awaits the upcoming inbound students through:
- Exposure to different learning environment
- Experience of a different culture
- Improvement of language skills
- Widening of academic horizons

STEM @ FIST

Program Jalinan Inovasi UMP – SK Taman Rinting 2

Our Industrial Chemistry Program welcomes Sekolah Kebangsaan Taman Rinting 2 (SKTR2) from Johor on the 2nd of August 2018 to experience the learning of science in FIST’s labs.

The STEM visit involved 36 students from Standard 4 and 5, and five of their teachers. They explored Kitchen science, Art & Science, and Environmental Science by experimenting and relating it to items those can be found in their daily life.

FIST x INDUSTRY

Official Visit to Gas Processing Kerith, Petronas Gas Berhad

On 23 July 2018, Applied & Industrial Mathematics (AIMs) research cluster had visited Gas Processing Kerith, Petronas Gas Berhad (PGB) to discuss on various potential projects that can be done at PGB.

NDA with Emas Impresif Sdn Bhd

FIST officially signed NDA with Emas Impresif Sdn Bhd on 17th May 2018. The collaboration focus in agriculture especially on improvement of procedure for plantation. 2kg sample of slow release fertilizer hydrogel were given to Emas Impresif to apply on real environment in their farm.

Dr. Fur, new halal serum for cats

Dr. Nina Suhaili Azmi, Senior lecturer of FIST collaborates with Zastech PLT under the MTDC Symbiosis Programme to develop serum Dr. Fur that promotes healthy fur of cats by stimulating its hair growth and also reduces cat shedding. The product uses glycosaminoglycans (GAGs) extracted from an alternative halal source.

The product has won several awards: Seoul International Invention Fair (SIF) 2015, International Invention, Innovation & Technology Exposition (ITEX) 2015 and Best of the Best Award at Creation, Innovation, Technology & Research Exposition (CITREx) UMP.

WORKSHOP ON ANTIMICROBIAL & ANTIOXIDANT ACTIVITIES

8 – 9 Nov 2018, 8.30am – 5.00pm
FIST Lab & Dome URF Fatimah, Universiti Malaysia Pahang, Gambang, Pahang
