

**THE PROPERTIES OF CONCRETE
CONTAINING REJECTED FOAMED
CONCRETE AS PARTIAL SAND
REPLACEMENT**

AHMAD LUTFI FAJRI BIN ZAIDAN

B. ENG(HONS.) CIVIL ENGINEERING

UNIVERSITI MALAYSIA PAHANG

SUPERVISOR'S DECLARATION

I hereby declare that I have checked this thesis and in my opinion, this thesis is adequate in terms of scope and quality for the award of the degree of Bachelor of Civil Engineering.

(Supervisor's Signature)

Full Name : DR. KHAIRUNISA MUTHUSAMY
Position : ASSOC. PROF.
Date : 19th June 2017

STUDENT'S DECLARATION

I hereby declare that the work in this thesis is based on my original work except for quotations and citations which have been duly acknowledged. I also declare that it has not been previously or concurrently submitted for any other degree at Universiti Malaysia Pahang or any other institutions.

(Student's Signature)

Full Name : AHMAD LUTFI FAJRI BIN ZAIDAN

ID Number : AA13144

Date : 19th June 2017

THE PROPERTIES OF CONCRETE CONTAINING REJECTED FOAMED
CONCRETE AS PARTIAL SAND REPLACEMENT

AHMAD LUTFI FAJRI BIN ZAIDAN

Thesis submitted in fulfillment of the requirements
for the award of the
Bachelor Degree in Civil Engineering

Faculty of Civil Engineering and Earth Resources
UNIVERSITI MALAYSIA PAHANG

JUNE 2017

ACKNOWLEDGEMENTS

Praise be to Allah, the Lord of Universe

In the name of Allah, the Most Gracious and the Most Merciful Alhamdulillah, I am grateful to the God for the good health and wellbeing that were necessary to complete this project.

I would like to express my deep and sincere gratitude to my research supervisor, Assoc. Prof. Dr. Khairunisa Binti Muthusamy, for giving me the opportunity to do research and providing invaluable guidance throughout this research. Her dynamism, vision, sincerity and motivation have deeply inspired me. Without her continued support and interest, this project report would not have been the same as presented here.

Last but not least, I want to express my deepest gratitude to my friend Ahmad Faizul Ali and Advien Ami for their constant support and concern throughout this project. I take this opportunity to express special gratitude to all staff of Concrete and Structure Laboratory for giving their time and energy in completing this project.

Finally, I thank all those who have helped me directly or indirectly in the successful completion of my thesis. Anyone missed in this acknowledgement are also thanked. If I did not mention someone's name here, it does not mean that I do not acknowledge your support and help. Again, I would like to thank everyone who supported and helped me during my study.

TABLE OF CONTENT

DECLARATION	
TITLE PAGE	
ACKNOWLEDGEMENTS	ii
ABSTRAK	iii
ABSTRACT	iv
TABLE OF CONTENT	v
LIST OF TABLES	viii
LIST OF FIGURES	ix
LIST OF ABBREVIATIONS	xi
CHAPTER 1 INTRODUCTION	1
1.1 Introduction	1
1.2 Problem statement	3
1.3 Objective	3
1.4 Significance of research	4
1.5 Scope of research	4
1.6 Layout of thesis	5
CHAPTER 2 LITERATURE REVIEW	6
2.1 Introduction	6
2.2 Concrete	7
2.3 Properties of concrete	8
2.4 Application of concrete	9

2.5	Rejected foamed concrete as waste and impact on environment	10
2.6	Sand mining in worldwide	10
2.7	Sand mining in malaysia	12
2.8	Effect of sand mining	13
CHAPTER 3 METHODOLOGY		15
3.1	Introduction	15
3.2	Material preparation	16
3.3	Mixing ingredient	17
3.3.1	Cement	17
3.3.2	Water	18
3.3.3	Rejected foamed concrete	19
3.3.4	Fine aggregate	20
3.3.5	Coarse aggregate	21
3.4	MIX PROPORTION	22
3.5	LABORATORY TESTING	24
3.5.1	Slump test	24
3.5.2	Compressive strength test	25
3.5.3	Flexural strength test	27
CHAPTER 4 RESULTS AND DISCUSSION		29
4.1	Introduction	29
4.2	Slump test	29
4.3	Compressive strength test	31
4.4	Flexural strength test	36
CHAPTER 5 CONCLUSION		41

5.1	Introduction	41
5.2	Conclusion	41
5.2.1	Effect of foamed concrete as partial sand replacement on workability of normal concrete	41
5.2.2	Effect of foamed concrete as partial sand replacement on compressive strength of normal concrete	42
5.2.3	Effect of foamed concrete as partial sand replacement on flexural strength of normal concrete	42
5.3	Recommendations	42
