ACKNOWLEDGEMENTS

First of all, I would like to express my deepest gratitude to Allah S.W.T for giving me strength, courage and fortitude to face my study to graduation and thanks to Allah S.W.T for His willing to give me the opportunity and good health for completed my final year project. Without His help I might not be able to finish this project. A million thanks to all my family members for their continuous love, moral support and trust. You all are the source of my strength and the drive to my success today.

Heartfelt appreciation goes out to my project supervisor, En. Mohammad Syamsyul Hairi b. Saat for his advice, guidance and encouragement over the years until I has finish my final year project. I am grateful for his time and effort to check and help for my thesis and final year project presentation slide.

I also would like to thanks all my fellow friends especially my colleagues and others in ensuring the completing of my project. I am truly grateful for their encouragement and time, without them this research would not have been possible. Thank you for all of your assistance, support and shared happiness throughout my studies. Last but not least, I would like to express my gratitude to UMP for giving me such a sweet memory during the four years of my studies here.
