Abstract — This paper explains the development of Anti Bribery Management System (ABMS) checklist to measure the state of readiness of an organization in implementing ABMS in its organization. Three instruments consisting of ABMS checklist, ABMS Matrix, and ABMS Dashboard were developed based on international references. ABMS has eight dimensions which are (1) Tone of the top, (2) risk assessment, (3) policies and procedures, (4) training and communication, (5) monitoring and auditing, (6) investigation and reports, (7) enforcement and sanction and (8) review and update. Data was collected in September 2017 from 31 middle and top management level of one organization as a preliminary study. The developed checklist was first validated by panel experts in the subject matter. A briefing session was then made to the respondents and they were then requested to answer the final checklist online. Data collected was then analyzed using descriptive statistics to gauge the perception of respondents towards the extent of implementation of ABMS. The organization was found to score 63.9%. Recommendations were suggested on how to improve the state of readiness of the implementation of ABMS.

Keywords — anti-bribery management system, ISO 37001, ABMS checklist, ABMS matrix, ABMS dashboard

I. INTRODUCTION

According to the study conducted by Transparency International in 2011, 27% of the 3016-business people surveyed across 30 countries reported that they had lost business due to bribery by their competitors. Damages caused by bribery to nations, associations and lower economic growth, debilitates venture, minimizes, and restrictive worldwide markets, dissolves bolster for monetary guide, puts an overwhelming monetary weight on poor people and brings down the way of life of the general population[1].

As stated in the Global Economic Crime Survey 2016, around 98% of companies surveyed make it clear to staff that incidents of bribery and corruption increasing from 19% (2014) to 30% (2016). Bribery and corruption incidences for instance, are on the rise, amidst an increasingly complicated risk landscape. [2, 3]. Bribery is...
