ACKNOWLEDGEMENTS

In the name of Allah SWT, most Grateful and most Merciful,

Alhamdulillah, thank to Allah SWT for giving me strength and endurance in finding my thesis. This dissertation would not have been possible without the guidance of several individuals who extended their valuable assistance in preparation and completion of this study.

My sincere gratitude to my supervisor Dr. Zahrizan bin Zakaria, who had given guidance for my work and came up with some inspiring suggestion, in the meantime, his patience in guidance me and for all his knowledge sharing, advices, enable me to develop an understanding of the subject. I also sincerely thanks to Dr. Zahrizan bin Zakaria for the time spent proofreading and correcting my many mistakes. It is an honor for me to thanks for everything, sir. Also thank to all the staff that help me in many way and their excellent co-operation.

A million thanks to my beloved parents, Ahmed Saeed Saadeh, Mohammed Ahmed Saeed Saadeh and my whole family for their understanding, support during my hard time, and also a source of encouragement and inspirational to me.

Lastly, I would like to express my gratitude to all dear friends and classmate especially fellow student of Civil Engineering for their heart whelming in giving idea in many ways, and support during this study. Thank you very much to all. Hopefully this research can be shared and thus provide benefits to the needy.
