British Cataloguing in Publication Data

A Cataloguing in Publication record for this book is available from the British Library.

Contents

Chapter 5

The Challenges and Solutions of Cybersecurity Among Malaysian Companies..... 103

Puteri Fadzline Tamyez, University Malaysia Pahang, Malaysia

Section 2

Smart Manufacturing and Supply Chain

Chapter 6

Multi-Objective Optimization of Economic and Environmental Aspects of a Three-Echelon Supply Chain..... 127

Rajaram R., Tata Consultancy Services, India

Jawahar N., Ramco Institute of Technology, India

S. G. Ponnambalam, University Malaysia Pahang, Malaysia

Mukund Nilakantan Janardhanan, University of Leicester, UK

Chapter 7

Economic and Environmental Assessment of Spare Parts Production Using Additive Manufacturing..... 159

Atanu Chaudhuri, Aalborg University, Denmark

Dennis Massarola, Aalborg University, Denmark

Chapter 8

Autonomous Vehicle in Industrial Logistics Application: Case Study..... 182

Julius Fusic S., Thiagarajar College of Engineering, India

Kanagaraj G., Thiagarajar College of Engineering, India

Hariharan K., Thiagarajar College of Engineering, India

Section 3

Industry 4.0

Chapter 9

Smart Make-to-Order Production in a Flow Shop Environment for Industry 4.0..... 210

Humyun Fuad Rahman, University of New South Wales, Australia

Mukund Nilakantan Janardhanan, University of Leicester, UK

Peter Nielsen, Aalborg University, Denmark

Chapter 5

The Challenges and Solutions of Cybersecurity Among Malaysian Companies

Puteri Fadzline Tamyez

University Malaysia Pahang, Malaysia

Abstract:

The objective of this chapter is to analyze the challenges faced by Malaysian companies in cybersecurity and to determine solution for Malaysian companies to overcome challenges in cybersecurity. The data were collected from the expert people in cybersecurity fields using interview sessions. The finding confirmed that the awareness and budget are very important in order to implement the element of cybersecurity in the company. Cybersecurity is good and desired as a protection for an organization in developing strategic planning to gain more profitability and increase the productivity of goods and services. This research will be beneficial for the organization because it will provide the solution for the company to overcome the cybersecurity issues. From this research, an organization can have potential to enhance competitiveness and understand the problem occur, then do the improvement by implementing cybersecurity.

Keyword: Cybersecurity; Profitability; Strategic Planning
