## RESEARCH BACKGROUND

Pineapple waste have been reported to contain nutrients such as dietary fibres, sugars, proteins and minerals.

These nurients could serve as a prominent source of growth factors to poultry.

Hence, it can helps as an alternative to reduce poultry farmer's costs to buy poultry feed.

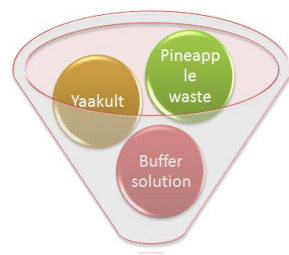

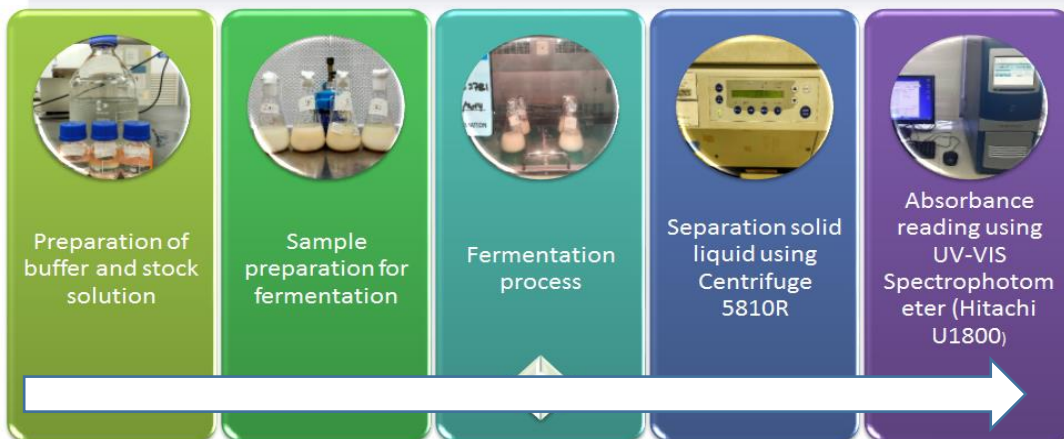

## MARKETABILITY

## NOVELTY & ADVANTAGES

## PROCESS

Supplement Drink

## BENEFITS TO POULTRY

Creates prebiotic effect

Maintain gut health

Growth promoting

Reduce oxidative stress

## TARGET CONSUMER

Poultry industries.

## COLLABORATION

Aqina Agriculture and Biotech Industries Sdn Bhd,  
Pontian, Johor.
